WORK EXPERIENCE

JAN 2022 - CURRENT Southlake, TX	Mobile Developer at FLOWTRAC I am apart of 2 person team responsible for developing and maintaining a mobile application for iOS and Android using the React Native framework. I play a key role in the design and development of the company's flagship mobile app, which enables clients to manage inventory across multiple locations with ease. I collaborate closely with my teammate and project managers to deliver features and provide support to our clients. Throughout the development process, I leverage my expertise in React Native to ensure a seamless user experience and integration with Flowtrac's web-based platform. I also take ownership of testing, debugging, and releasing updates to the app.
OCT 2017 - JAN 2022 Fort Worth, TX	Repair Technician at UBREAKIFIX/ASURION I worked directly with clients to solve complex problems with small and large consumer electronics. Working within an effective team we handled up to 30 same-day cellphone repairs ranging in issues from a broken screen to not powering on. I repair many brands of electronics such as Motorola, Samsung, Apple, HTC, HP, Sony, Xbox, and more.
AUG 2015 - APR 2017 Portland, OR	Software Developer at CATALYST DEVWORKS Analysed business problems and provided solutions with a team in an agile environment. Using a wide variety of organizational and software technologies we aided many companies in streamlining their processes.
Nov 2013 - AUG 2015 Coppell, TX	Ambassador at AMAZON Trained new Amazonians in the fine art of packing, sorting, and palletizing of packages. Worked with logistics to unload, sort and palletize then reload 50-110 thousand boxes a day. Worked with a team of up to 15 people to meet same day deadlines.
SEP 2010 - JAN 2011 San Angelo, TX	I.T. Technician at GEEK SQUAD Worked with a team during peak season to provide quality customer service and quick PC/Laptop and electronic device repair. Duties were: troubleshoot and repair PCs and laptops, configure electronic devices and install software, clean devices of dust, install third-party hardware, consistently met deadlines.
AUG 2008 - MAY 2010 Hurst, TX	I.T. Technician at H.E.B. I.S.D. Led a team to maintain I.T. infrastructure for the school district. Duties were: configure and deploy desktops for use in labs and classrooms, install equipment (i.e. projectors, screens, and wiring) in classrooms, clean PCs of dust and malware.
